LIGHT THAT GIVES YOU A CHOICE

CALMOS PRO 5CCT redefines the approach to professional lighting. Designed for dynamic spaces and demanding projects, it is an evolution of the proven CALMOS range, combining flexibility, precision, and timeless aesthetics.

One luminaire, multiple possibilities. Thanks to adjustable colour temperature and power settings, CALMOS allows decisions to be made when they are truly needed – at the installation stage, not during planning. A level of freedom that transforms the way designers and installers work.

7 YEAR WARRANTY
New reliability standard

5CCT + DUAL POWER

FULL CONTROL OVER LIGHT

One luminaire, five colour temperatures and two power settings. The ability to choose light tailored to the character of the space — from warm and relaxing to cool, concentration-enhancing illumination. Full freedom of choice at the installation stage.

CALMOS 5CCT PRO is a solution designed for the conscious shaping of light in commercial spaces. Precise optics and adjustable parameters allow the lighting character to be tailored to the function of the interior, while maintaining consistency and visual comfort.

The recessed light source reduces glare and creates soft, controlled lighting accents that highlight architecture without overpowering the space.
CALMOS works with the design — discreetly, yet effectively.

RELIABLE CONSTRUCTION

OPTIMISED COOLING

Efficient thermal management is the foundation of reliability. The external heat sink and refined luminaire design ensure stable operating conditions, even under intensive use. As a result, CALMOS maintains its performance and light quality for years, providing peace of mind and confidence in every project.

Thanks to this design, the CALMOS luminaire is backed by a 7-year warranty.

ONE VARIANT, TOTAL FLEXIBILITY.

By choosing the CALMOS PRO luminaire, you gain maximum flexibility and reliability in every project. One solution replaces multiple variants, simplifying selection, logistics, and the implementation process. Thanks to adjustable parameters tailored to specific needs, the luminaire ensures full control over the final effect, while durable components guarantee stable operation and a long service life.
