LINEAR LUMINAIRE NAREW

Key features

- ▶ High luminous efficacy 150 lm/W
- ▶ A linear integration system that enables the creation of continuous, linkable lines of light
- ▶ Multi-Power + 3CCT - one fixture, four wattages and three light colors
- ▶ Aesthetic linear design
- ▶ Surface-mounted or suspended installation
- ▶ Long lifetime of 100,000 hours

EFFICACY 150 lm/W

Power [W]:
36-42-51-60

Luminous flux [lm]:
5300-6300-7650-9000

Beam angle [°]
110

Colour temperature [K]:
CCT 3000-4000-5700

Lifetime [h]:
L70B50 - 100.000

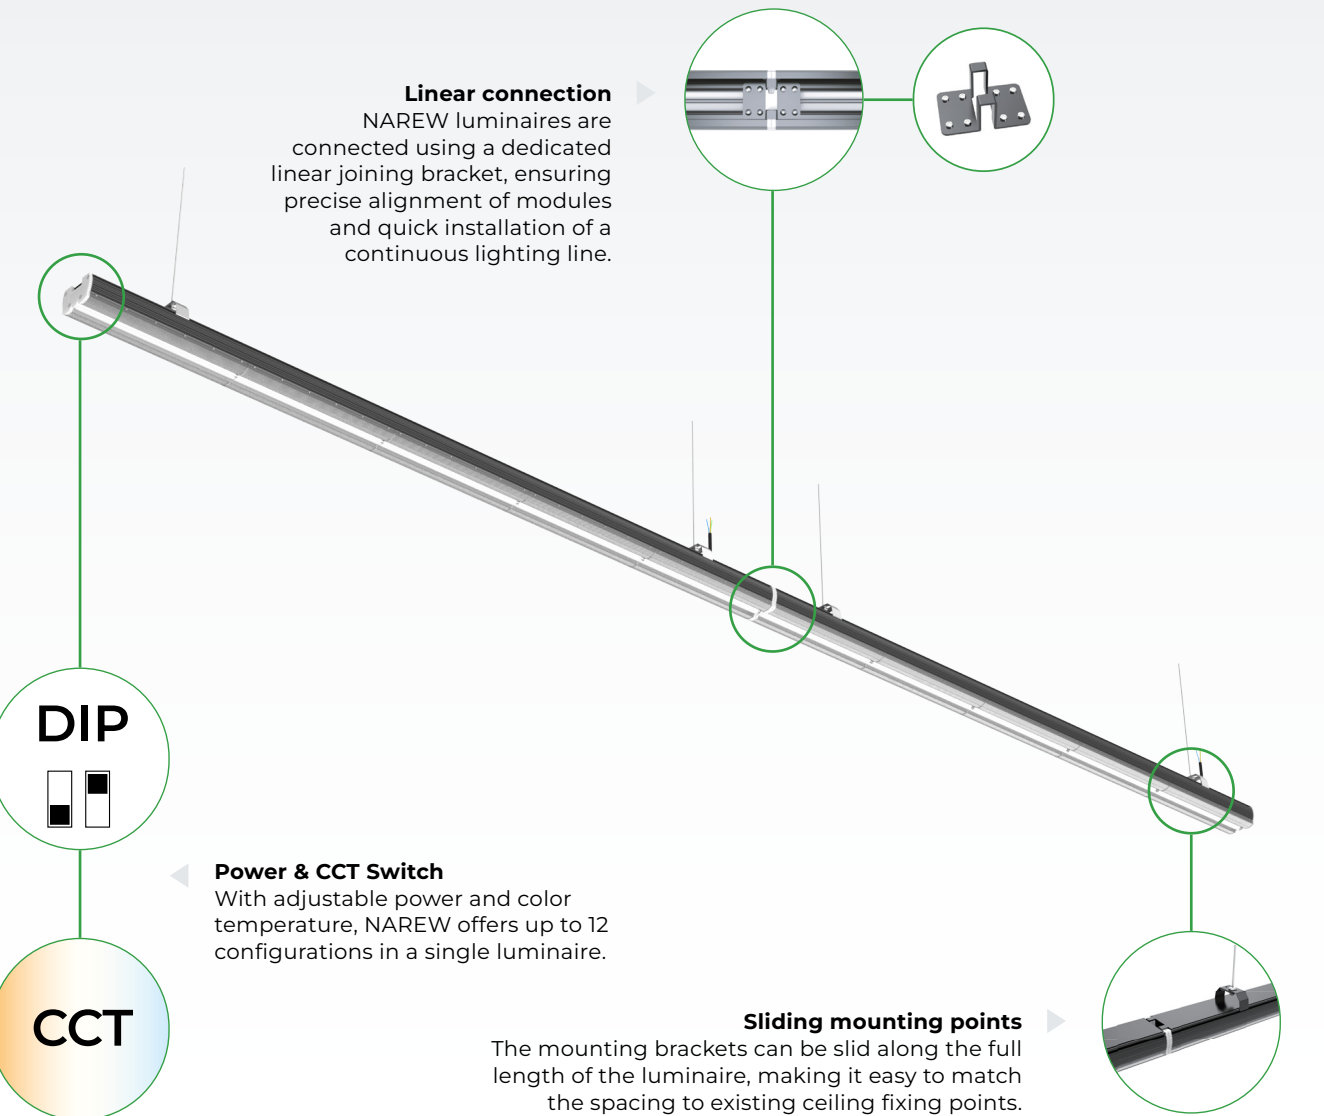

Diffuser:
polycarbonate

Housing:
aluminium

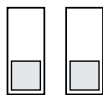

A LINE THAT DEFINES THE SPACE

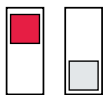

NAREW is an aluminium linear luminaire designed for modern retail and industrial spaces, where light structures the architecture and defines the function of the area. Developed for supermarkets, production halls, and medium-height warehouses, it combines high luminous efficacy with flexible configuration options and a refined, well-thought-out installation system.

POWER AND COLOR TEMPERATURE ADJUSTMENT

NAREW offers four power levels in the **36–60W** range and three color temperatures **3000K**, **4000K**, and **5700K**, providing a total of **12 configurations** within a single luminaire. This allows you to precisely match both the illuminance and the character of the light to the function of the space, from retail areas to warehouse routes and production zones.

For the installer, it means easier installation and fewer variants on site. For the distributor, it reduces inventory levels and increases sales flexibility. For the designer, it provides the freedom to shape parameters without changing the system's aesthetics.

One platform. Full control over light.
