- ▶ Integrated mounting brackets for secure installation
- ▶ Available in 30W, 60W and 100W versions
- ▶ 5-year warranty

Power [W]:

30, 60, 100

Output voltage [V]:

24

Ingress protection rating:

IP44

Housing:

polycarbonate

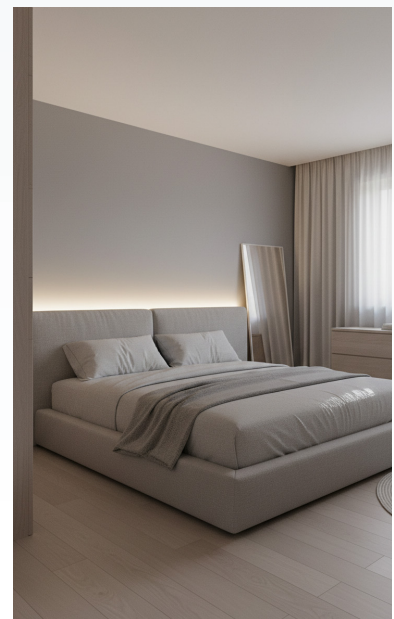

POWER SUPPLY IN PLACES WITHOUT SPACE

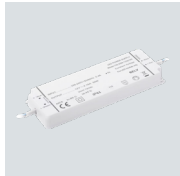

The SLIM IP44 power supply is a specialist solution designed for installations where standard drivers simply do not fit. Its ultra-slim housing, only 18 mm high, allows it to be mounted in shallow furniture builds, behind mirrors, or in ceilings with minimal service space, without compromising aesthetics and without improvised fixes.

At the same time, the enhanced IP44 protection enables safe use in areas with increased humidity, such as bathrooms and kitchens. This combination of compact dimensions and real environmental resistance makes it a truly distinctive solution in its class.
