Road luminaire CAMINO

CAMINO outdoor luminaire, will work well not only for lighting streets, but also parking lots, parks, squares or other extensive outdoor areas.

Investors are looking for outdoor lighting, including street lighting, which is energy-efficient and effective, while guaranteeing low maintenance costs. CAMINO luminaire is an example of such a product. It is an ideal solution for investors - local government units, developers, entities implementing large investments.

Energy savings

CAMINO is an outdoor luminaire with an exceptional luminous efficiency of 140lm/W, thus guaranteeing not only excellent illumination or significant energy savings, but also money. Invest in efficiency by reducing the costs associated with electricity consumption.

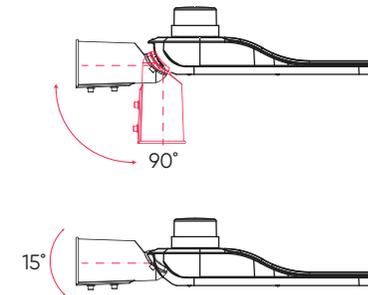

Reliability of LUMILEDS branded LEDs

Equipped with branded LUMILEDS LEDs, the luminaire provides reliable and long-lasting lighting. We have ensured quality you can rely on. The lifetime of the luminaire, marked as L70B50 - 100,000h in practice, means that after a certain period of operation, at least 50% of the diodes in the luminaire will continue to shine with a brightness of at least 70% of their initial value.

Safety of use

With 10kV surge protection, our luminaire is protected against sudden power surges, which translates into reduced maintenance and component replacement needs.

Flexibility of installation

To meet the needs of our customers - we also took care of easy and flexible mounting, giving the possibility to tilt the luminaire by +/- 15 degrees or mount it at 90 degrees. The T2M lens, on the other hand, provides an optimal illumination angle of 150x110 degrees for road luminaires. This functionality allows the luminaire to perfectly adapt its lighting to specific environmental conditions.

Long warranty period

We value the trust of our partners and customers. That's why we offer a 5-year warranty on CAMINO luminaire, so that they can peacefully enjoy perfect lighting for a long time.

Excellent price

Our offer stands out among luminaires of similar parameters with a sensational price. What is worth noting, we offer high quality - including a diffuser made of tempered glass and a housing made of cast aluminum.
