LED STRIPS FREE CUT

EFFICACY 85 lm/W

Power [W/m]:
13

Luminous flux [lm/m]:
910

Beam angle [°]:
180

Colour temperature [K]:
3000 4000

Lifetime [h]:
L70B50 - 30.000

Strip colour:
white

Key features:

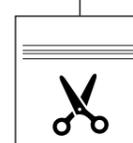

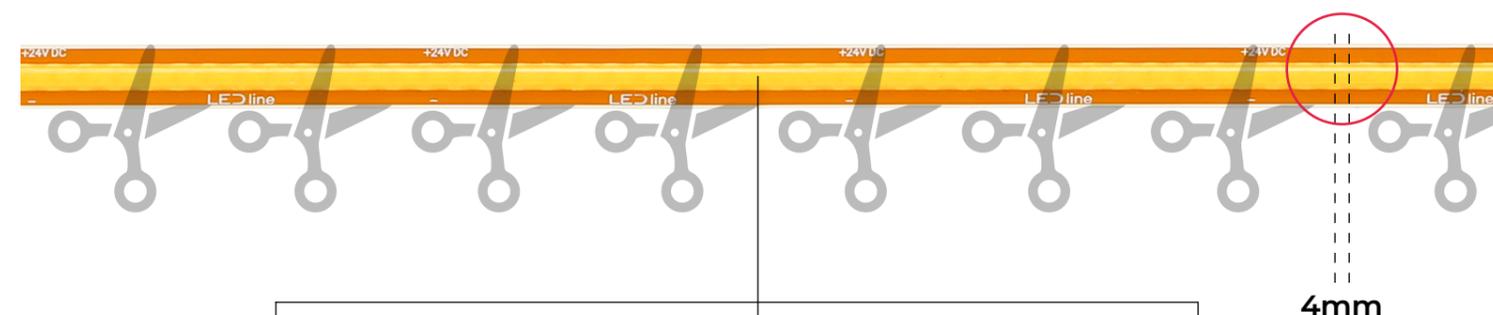

- ▶ Precise cutting every 4 mm – maximum adaptability to any space
- ▶ Two cuts per 1 cm possible – zero material waste
- ▶ High tape flexibility – easy installation in tight fittings and curves
- ▶ Clean, uniform line of light thanks to COB technology
- ▶ Available in two light colours – warm and neutral
- ▶ High component durability – 5-year warranty

Application:

- ▶ Decorative and functional lighting for a wide range of interior types

Free Cut Technology

Free Cut technology allows the tape to be cut every 4 mm, ensuring perfectly tailored lengths with no material waste. The extremely dense cut points make it possible to create custom-sized sections that match the project exactly. The tape lays smoothly in recesses, corners and furniture elements, maintaining a continuous line of light. The result is faster, cleaner and more predictable installation — without corrections or compromises. Free Cut is a technology that genuinely reduces installation costs and improves the quality of the final finish.

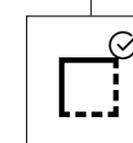

Precise cutting

Dopasowanie długości z dokładnością do milimetra — bez strat materiału.

Made-to-measure finishing

Creating sections that match the design exactly — without excess or shortage of tape at the ends.

High flexibility

A flexible tape that fits easily into furniture, recesses and built-in structures.
