POWER SUPPLIES IP67

Key features

- ▶ New generation constant voltage power supplies
- ▶ Stable 12V / 24V DC output for reliable operation
- ▶ High efficiency design for lower operating temperature
- ▶ IP65 / IP67 protection for demanding environments
- ▶ Complete protection package: OVP, OCP, SCP, OTP
- ▶ Wide range of power versions from 18W to 150W
- ▶ PRIME series reliability and long service life

Power [W]:
18, 40, 60, 75, 100, 148, 150

Output voltage [V]:
12, 24

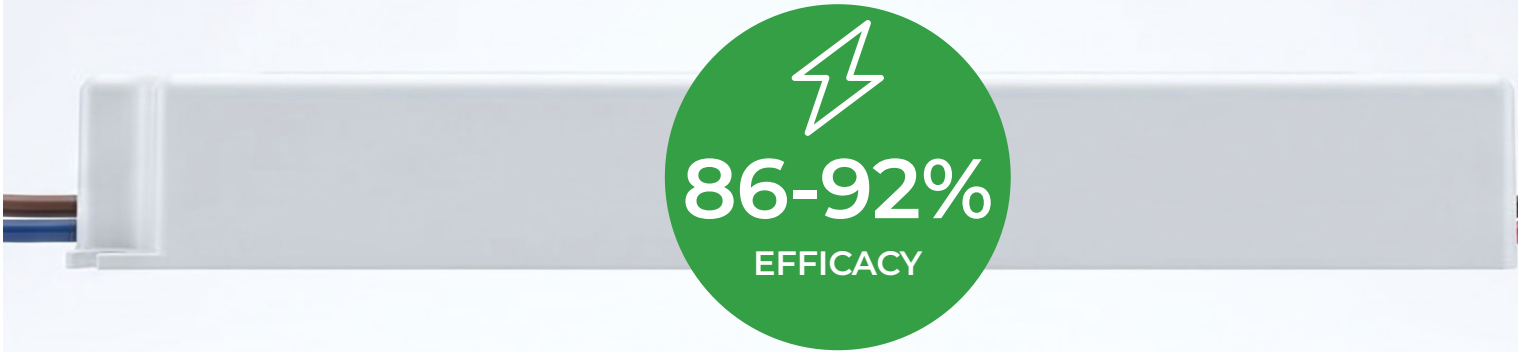

Ingress protection rating:
IP65 (18W), IP67

Housing:
polycarbonate

THE SAME QUALITY, EVEN HIGHER PERFORMANCE.

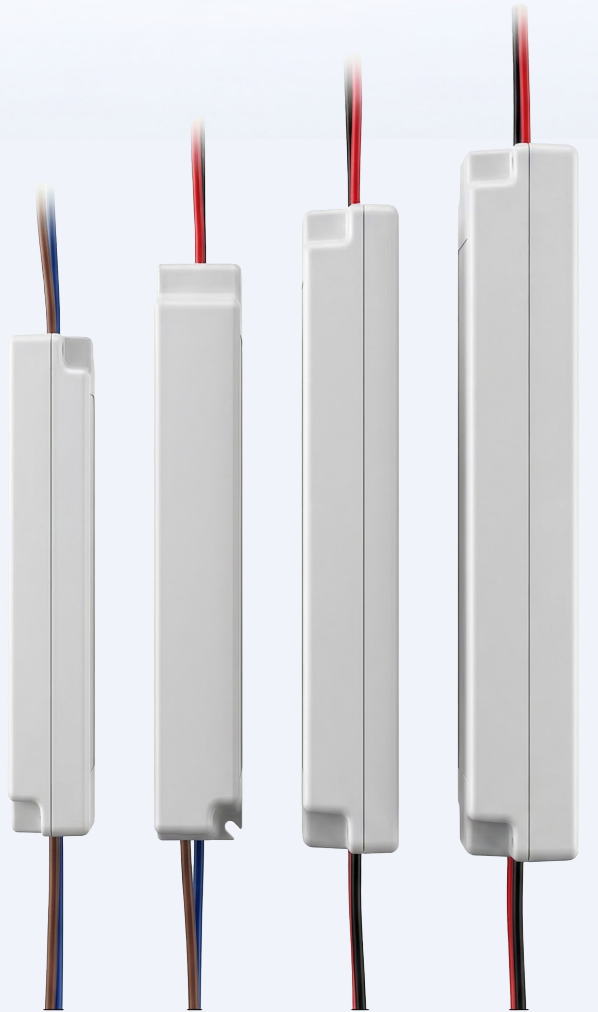

The new generation of PRIME power supplies delivers the same reliable quality, now with even higher performance. Efficiency levels of **86-92%** ensure efficient operation and significantly reduced energy losses, while the **SC, OC, OV and OT** protection features provide a high level of safety and stable performance across a wide range of applications.

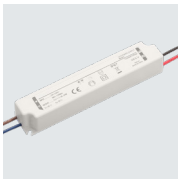

NEW GEN.

The new generation of LED line power supplies has been designed to ensure even greater reliability and operational stability for installations.

The improved design and higher energy efficiency result in lower operating temperatures and a longer service life. While maintaining proven quality and installation compatibility, the new series offers better performance and greater safety in demanding applications.

Power supply waterproof IP65/67 PRIME

SYMBOL	[W]	[V]	IP	AxBxH [mm]
