## IP44 Ceiling Light

**It's perfect wherever you need it!**

Ceilings from the LED Line LITE IP44 series are products that combine versatility with optimal lighting quality. They are suitable both for private homes and for large investments.

Whether you need lighting outside a building, at doors and gates, or inside for corridors, stairwells, or passageways, these fixtures will meet expectations in terms of both functionality and aesthetics.

The availability of ten indices allows you to tailor the lighting to specific needs, ensuring optimal lighting efficiency.
