- ▶ Free choice of light colour thanks to the E27 socket
- ▶ Perfect complement to CUBE outdoor wall luminaires
- ▶ Opal diffuser made of high-quality materials

Light source:
E27 (replaceable)

Housing:
stainless steel + PC

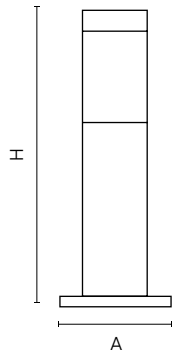

LIGHT INCORPORATED INTO ARCHITECTURE

Garden bollards with an E27 socket combine minimalist form with long-term flexibility of use. The replaceable light source provides full control over lighting parameters, from wattage and color temperature to future upgrades without the need to replace the entire fixture.

Available in black and corten finishes, in both round and square versions, they allow precise alignment of lighting with the architectural character of the space. They complement modern, geometric forms as well as more natural, raw garden environments. The simple design does not compete with its surroundings but organizes them with light, creating rhythm and structure in outdoor areas.

For investors, it is a durable solution with predictable servicing. For residents, it offers the freedom to shape the atmosphere by choosing the appropriate light source.

Garden luminaire E27 CUBE black

SYMBOL	[W] max	SHAPE	AxBxH [mm]
227484	60	round	75x75 x 800
