LED PROFILES

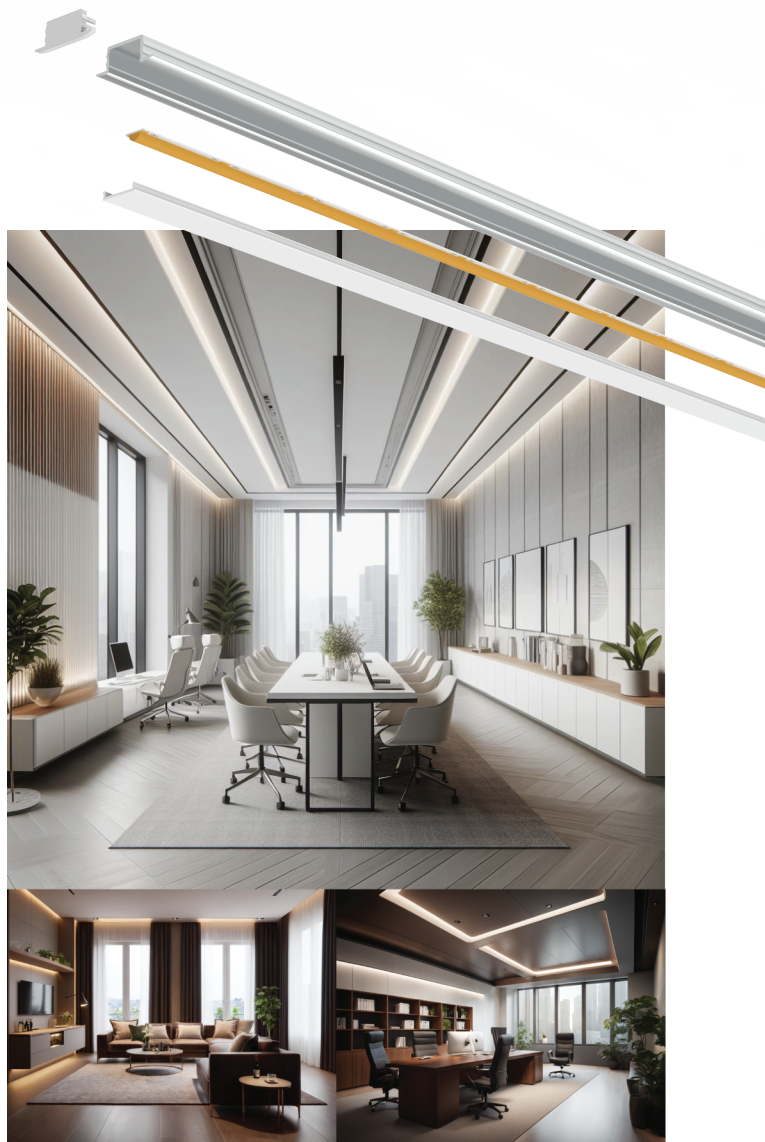

LED PROFILES

Unlike traditional materials, such as furniture board, wood or plasterboard, PRIME line LED profiles are the ideal solution, guaranteeing not only durability, but also safety of lighting in various rooms, from bathrooms and kitchens to living rooms, bedrooms and corridors. They are also perfect for offices, hotels or restaurants.

PRIME line LED profiles:

- **are available in three colors and three mounting options**, thus giving unlimited possibilities for use in various places, such as ceilings, walls, floors, furniture or countertops;
- thanks to the thickness of the material and the guarantee of safety, are not only a decorative element, but also a functional and durable solution for any lighting project;
- **have a KLIK diffuser**, designed for ease of installation and removal, while providing excellent protection for the LED strip from external influences such as dirt and mechanical damage;
- They come with as much as a five-year warranty, giving you the peace of mind of using them for a long time.
- **We offer profiles in a complete set**, with all the necessary accessories, such as shades, caps and mounting brackets.

We provide tools for product display.
