

HIGH BAY

STREAKBAY

Durability and even lighting for industry

Robust IP65-rated luminaire, ideal for harsh environments. Its linear design provides even illumination of large areas, which increases safety, comfort and reduces visual fatigue. A cost-effective solution to illuminate high spaces at a lower cost.

Economical and efficient

Our luminaire is a cost-effective solution that provides intense light. The robust IP65-rated aluminum housing makes it ideal for a variety of applications.

Wide range of models

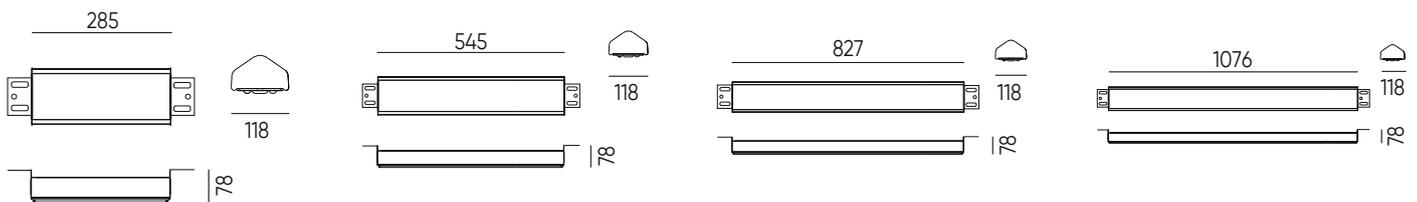

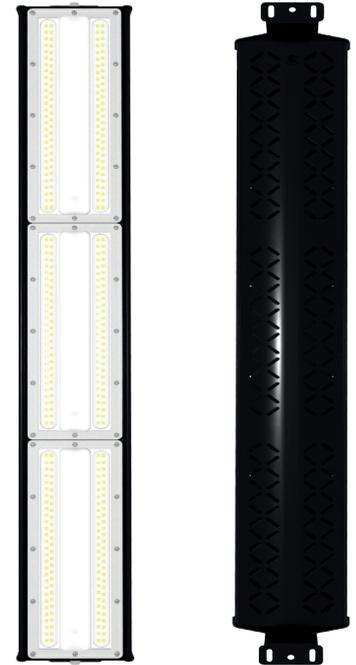

Available range with wattages of 50, 100, 150 and 200W. With a variety of options, you can easily tailor the lighting to your needs by choosing the right model.

Asymmetrical lens

The asymmetrical lens reduces light scattering, improving illumination and allowing the luminaire to be mounted at greater heights, ensuring proper floor illumination.

Resistance

The aluminum housing, polycarbonate diffuser and resistance to extreme temperatures ensure reliable operation in harsh environments.

HighBay STREAKBAY luminaire models available:

206748	High bay STREAKBAY 50W 5000lm 4000K
206755	High bay STREAKBAY 100W 10000lm 4000K
206762	High bay STREAKBAY 150W 15000lm 4000K
206779	High bay STREAKBAY 200W 20000lm 4000K
206786	Steel wires
