CUBE

POWERED BY THE SUN 

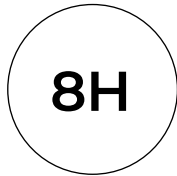

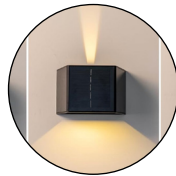

Autonomus solar lighting

Compatibility with CUBE wall lamps

Powerful Li-On battery
- up to 8 hours of operation time

Up/down distribution adjustment

GARDEN LUMINAIRE

CUBE SOLAR

Key features

- ▶ Solar powered – independent power supply using solar energy
- ▶ 3000K warm white – comfortable light for façades
- ▶ 50 lm luminous flux
- ▶ IP54 protection – resistant to rain and dust
- ▶ Durable PC + ABS housing – UV resistant
- ▶ Li-ion rechargeable battery
- ▶ Automatic dusk sensor
- ▶ Architectural cube design

Battery:
Li-On (replaceable)

Luminous flux [lm]:
50

Colour temperature [K]:
3000

Housing:
PC + ABS UV proof

SOLAR WALL LAMP CUBE

The CUBE Solar Wall Light combines modern, geometric design with energy independence, making it ideal for illuminating façades without the need for wiring. Equipped with an efficient rechargeable battery, it provides free and automatic lighting throughout the night.

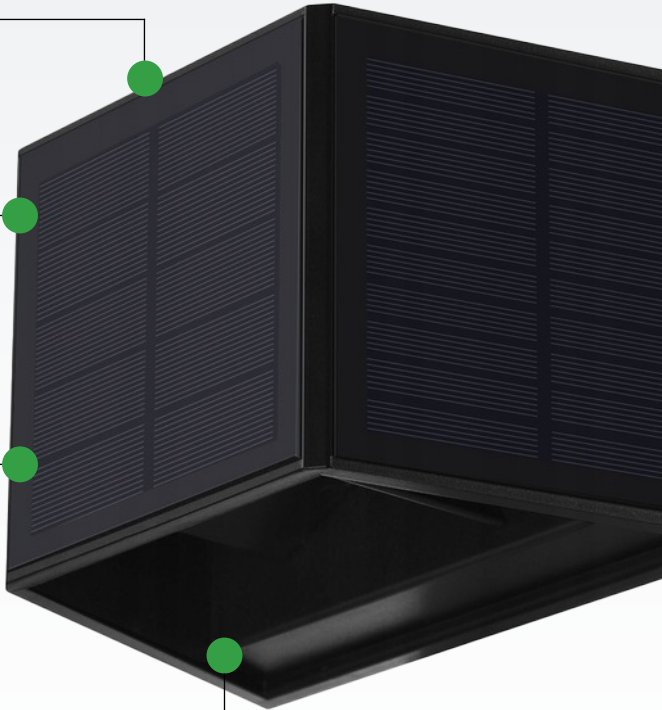

Its durable IP54-rated construction ensures long-lasting performance while maintaining a consistent look with the traditional mains-powered fixtures from the LED line CUBE family.

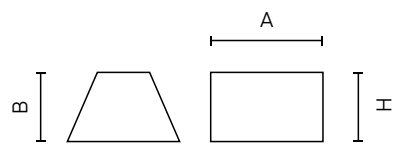

Match & Mix Design
The same form as the 230V version. Combine both types on a single façade without visual inconsistency.

Automatic Operation
Turns on automatically at dusk. Provides light exactly when it's needed.

100% Wireless
Fully autonomous power supply with no need for electrical wiring or façade modifications.

Adjustable Beam Distribution
Independent two-way adjustment of the light beam, up and down.
