Outdoor Wall Sconce CYLINDER - Elegance and Functionality in an Aluminum Setting.

We are proud to present the CYLINDER Wall Sconce in its new aluminum housing. This change brings numerous advantages that will make your outdoor lighting even more exceptional.

The aluminum casing is not just a matter of aesthetics but, above all, solidity and durability. The fixture's body is highly resistant to all kinds of mechanical damage, ensuring long-lasting use. Furthermore, thanks to its robust construction, the aluminum casing is also perfectly suited to challenging weather conditions, guaranteeing the reliability of the lighting regardless of the weather. This makes the CYLINDER sconce provide not only elegance but also reliability and durability for many years.

Flexible Lighting:

The CYLINDER offers full flexibility in setting the angle of illumination from a few degrees up to an impressive 120 degrees. The light output can be adjusted both upwards and downwards, enabling you to tailor the lighting to your specific requirements.

Innovative Design:

The CYLINDER is a sconce that combines timeless design with a modern approach to outdoor lighting. Its broad flexibility in lighting arrangement allows you to adjust the light to your space's needs, whether it's a private building, a walkway, or a shared area in an elegant residential complex.

Versatility of the CYLINDER Sconce:

- Available in two color temperatures: warm 3000K and neutral 4000K.
- IP54 weather resistance, allowing the fixture to be used outdoors without concerns about atmospheric conditions.
- Energy efficiency – the CYLINDER consumes only 2x3W, resulting in electrical energy savings.
- Provides an impressive light output of 450lm.
- Robust aluminum casing.

Aesthetic Design:

Available in three elegant colors – gray, black, and white, the CYLINDER sconce with gently rounded edges perfectly complements almost any setting. Whether you're a fan of modern interiors or classic designs, the CYLINDER is designed to captivate with its aesthetics.
