## **EASY FIX PRO panel – discover the power of its capabilities!**

EASY FIX PRO panels – are luminaires with a universal design and many possibilities: both in terms of installation and lighting parameters. All this makes them ideal for use in offices, private homes, public buildings, restaurants, hotels, as well as in larger, covered areas.

### **Durability and comfort for years of use**

The durable housing and high-quality LEDs ensure the luminaire's long-lasting whiteness. As a result, users can enjoy not only efficient lighting, but also energy savings and minimal costs associated with maintenance or replacement of panel components.

## What distinguishes EASY FIX PRO panels?

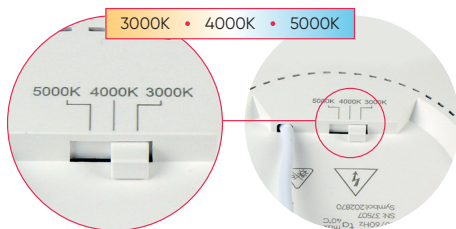

### Customizing the installation to suit individual needs

The panel can be adapted to different types of mounting – surface or flush-mounted – which provides flexibility in installation, depending on specific needs and installation conditions.

Adjustable mounting rail gives you the opportunity to adjust the panel to existing openings.

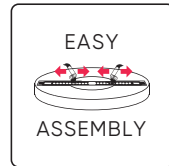

- You will mount the 6W panel in holes with a diameter of 55 – 90 mm,
- 12W panel corresponds to holes 60 – 135 mm,
- 18W panel fits holes 60 – 185mm,
- 24W panel – 60 – 260mm.

This makes it a truly versatile solution and allows you to enjoy perfectly matched lighting without having to carry out adaptation work. Importantly, the installation process is very simple at the same time – it does not require the use of any specialized tools, thanks to which it saves time and eliminates the risk occurrence of difficulties.

### CCT light color control

The selectable color temperature and lack of flicker promote well-being and concentration. In addition, intuitive operation allows you to quickly adjust the settings to your preferences, which promotes work efficiency and comfort in daily use. Enjoy the highest quality light, thanks to a high color rendering index of RA>85.

## Design that enhances the aesthetics of the premises

EASY FIX PRO panels not only illuminate rooms perfectly, but also look elegant, adding a modern and stylish touch to interiors. Thanks to their subtle casing with a minimalist design and the choice of shape - round or square - you can easily fit them into any decor, while emphasizing the aesthetics of the room.

### Multiple panel variations

The Easy Fix Pro round downlights come in four power variants: 6W, 12W, 18W, 24W

And in a square version in two power variants: 18W, 24W.

### Technical parameters:

- available wattage: 6W 12W 18W 24W
- luminous efficiency: 90-100 lm/W
- degree of protection: IP20
- variable CCT color temperature: 3000K - warm, 4000K - neutral and 5000K - cool
- color rendering index Ra>85
