Mean Well power supply RSP-500-24
21A 500W 24V

The RSP-500-24 power supply by Mean Well is a professional device with a output voltage of 24 V and a maximum power of 504 W. Its output current is 21 A, which provides stable power for various lighting applications. This model is characterized by high reliability and durability, making it an ideal solution in demanding conditions. The use of advanced technologies guarantees optimal performance and energy efficiency.
