Mean Well power supply LPV-150-48
3.2A 150W 12V IP67

The LPV-150-48 power supply by Mean Well is a unit with a power output of 153,6 W and nominal output current of 3.2 A. It works at 48 V output voltage, making it ideal for applications requiring stable power supply. The IP67 protection housing guarantees resistance to dust and water, allowing safe operation in difficult conditions. The technology used ensures high energy efficiency and reliability of operation, which is crucial in LED systems.
