

Mean Well

Code: NDR-75-24

EAN:

Mean Well power supply DIN rail 3,2A
75W 24V

The Mean Well NDR-75-24 is a single-phase unit designed for mounting on the DIN rail. It has a metal casing with a slender profile, which saves space in the switchboard. Its input voltage is within the range of 88-264VAC, with a peak function allowing temporary load up to 150%. The security features used include overload, short circuit protection and overvoltage protection.
