Mean Well constant voltage power supply HLG-185H-12A

The HLG-185H-12A power supply from Mean Well is a reliable 156W device that provides a stable output voltage of 12V. Its design according to IP65 guarantees resistance to dust and water, making it ideal for applications in difficult conditions. With a maximum load of 13A, the power supply offers high energy efficiency and safety of use thanks to overload, short circuit and overvoltage protection.
