MERRYTEK sensor s/a on/off DT
230V(DC) 12-24V

MSA040D-RC is a highly versatile motion sensor allowing for power supply from a classic voltage of 230V or a constant 12-24V DC. The device operates independently as a stand-alone module, offering seamless ON/OFF control. The detector settings can be quickly and precisely configured using a dedicated remote control. Its dual power supply facilitates integration with both standard network installations and low-voltage solutions. It is an excellent choice for investors who value flexibility and ease of use.

Technical data

Parameter	Value
Warranty	5
Voltage	• 12-24 V DC
IP protection rating	IP20
Frequency of the supply voltage	50/60Hz

Parameter	Value
Ambient temperature suitable for operation	0?~50?
Height	23 mm
Diameter	105 mm
