Mean Well power supply ELG-150-24DA
6,25A 150W 24V

The ELG-150-24DA power supply from the recognized Mean Well brand is a solid and reliable 150W power source designed to work at the output voltage of 24V. Its maximum current is 6.25A, which provides stability in the power supply of demanding applications. Built in accordance with IP67 standards, it has high resistance to atmospheric conditions and dust. The product guarantees energy efficiency and long-lasting service life, perfect for different LED systems.
