Motion sensor 180' white IP44

The 180° detection range motion sensor, made in white, is ideal for different conditions. Powered by 220-240V AC voltage, it is characterized by a maximum load of up to 1200W and low current consumption of about 0.5W. It offers the possibility to adjust light sensitivity in the range of 3/2000 LUX and the lighting time from 10s to 7 min. It works at ambient temperature from -20 to +40°C and its IP44 resistance class provides protection against moisture and dust.

Technical data

Parameter	Value
Working current	0,5W
Maximum load	1200W
Length	85

Parameter	Value
Width	70
Height	90
Colour	biały
