Outdoor motion sensor IP44 white

The external motion sensor IP44 in white is a modern device with high sensitivity, allowing you to adjust detection parameters. It works at 220-240V AC voltage at 50/60Hz, offering the possibility to adjust the operating threshold in the range of 3/2000 LUX and the lighting time from 10 s to 7 min. The detection range is up to 12 m and the detection angle reaches 180°. The device has a power consumption of approximately 0,5W and a maximum load of up to 1200W.

Technical data

Parameter	Value
Working current	0,5W
Maximum load	1200W
Length	148

Parameter	Value
Width	122
Height	86
Colour	biały
