EAN:

Connector for 1-phase track light rail tee (black)

The 1-phase T-type black matt rail connector is a reliable solution for power systems. The device supports 100-240V AC voltage and operates in the 50/60Hz frequency range, providing stable power supply. Made of metal, ABS and copper conductors, it guarantees durability and high quality connections. It has IP20 leak class and operating temperature from -25°C to +60°C. Compact dimensions: 105 x 70 x 20 mm allow easy installation.

Technical data

| Parameter            | Value |
|----------------------|-------|
| IP protection rating | IP20  |
| Length               | 105   |
| Width                | 70    |

| Parameter          | Value |
