**Mean Well power supply ELG-200-24DA
200W 24V IP67**

The ELG-200-24DA is an advanced model from Mean Well, offering 200W output power at 24V. It has a current capacity of up to 8.4A, which makes it suitable for a variety of applications. Built for durability, it is characterized by a high degree of protection IP67, providing resistance to dust and moisture. Thanks to its robust design and overcurrent and overvoltage protections, the device guarantees stable operation in difficult conditions.
