

LED line LITE

Code: 478023

EAN: 5907777478023

LED line® Channel Sensor PIR

The LED line Channel Sensor PIR is a modern lighting automation solution. It was designed as an element cooperating with LED line power supplies Multipower, allowing efficient management of light circuits. Equipped with motion detection technology, it activates light immediately after detection of activity within its range. In the absence of movement, the switch shall be automatically switched off after 30 seconds.
