FLOWLITE 20W CCT 1000lm LITE

New

FLOWLITE 20W CCT 1000lm LITE is a modern light source with a power of 20W, providing excellent brightness of 1000 lumens. It allows to adjust the colour temperature in three ranges: warm (3000 K), neutral (4000 K) and cold (6500 K). The product has high energy efficiency, which translates into savings.

Technical data

| Parameter           | Value              |
|---------------------|--------------------|
| Voltage             | • 3.7 V DC         |
| Colour of the light | White              |
| Luminous flux       | 1000               |
| Warranty (years)    | 3                  |
| Lifetime L70B50     | 35 000 h           |
| Hold time           | black              |
| Output current      | 211346             |
| Type of battery     | 3.7V 2200mAh 18650 |
| Beam angle          | 120                |

| Parameter                                  | Value                            |
|--|----------------------------------|
| Sensor type                                | PIR                              |
| Material (cover)                           | clear glass                      |
| LED quantity                               | 40                               |
| Lifespan                                   | 35 000 h                         |
| Ambient temperature suitable for operation | -20÷40                           |
| Lamp's warm-up time to 60%                 | 1 s                              |
| Correlated colour temperature              | • 3000 K<br>• 4000 K<br>• 6500 K |
| Power                                      | • 20 W                           |
